DAIRIES Not Reflecting Entries Subject to Additional 301 Duties

In a recent Cargo Systems Messaging Service notice, U.S. Customs and Border Protection [alerted](#) customs brokers that dairy product entries subject to additional duties due to the ongoing Large Civil Aircraft dispute with the European Union (EU) are not being automatically decremented from license allocations. USDA-FAS clarified that this means that license holders' DAIRIES accounts are not automatically reflecting entries made that are subject to the additional 25 percent tariff.

In order to resolve this issue, license holders should direct their brokers to contact CBP at HQUOTA@cbp.dhs.gov to have CBP manually post the affected entries in the quota system and have the entries reflected in the DAIRIES system. Brokers should be prepared to share the following information with CBP about affected entries: Entry Number, Line Number, License Number, CO Origin, Quantity, and HTS Number.

It is important for license holders to take action on this soon to ensure that the DAIRIES system accurately reflect usage of quota allocations and to ensure licenses will be correctly awarded during the forthcoming issuance's for the 2020 license year.
